

## Important Changes to the Kroger's Gift Card Program –

Effective May 1, Kroger will no longer utilize the reloadable gift cards to issue Scrip credit. On that date, Kroger will switch to using your **Kroger Plus Card** to issue the Scrip credit. This change means that you will no longer need to purchase anything ahead of time to participate. Instead, each time you swipe your **Kroger Plus Card** before your transaction (which you probably already do), you will receive Kroger Rewards credit for that purchase as long as your card is registered online & your information has been passed to the program administrator, Lisa Reade.

You will need to go to [www.krogercommunityrewards.com](http://www.krogercommunityrewards.com) & register your **Kroger Plus Card** - select **Pride Soccer Club, or PSC or #** as your designation, all work when searching.

In order to properly credit player accounts, it is important that we receive the following information from you as soon as you sign up each *Kroger Plus Card* number that you wish to add to your account:

- Cardholder Name
- Kroger Plus Card Number
- Player to which to give credit or indicate Pride Soccer Club if you want it to remain with the organization

Even if you have never participated in the Kroger Rewards Program, you may still take advantage of this unique program with Kroger by providing the information below.

Please e-mail this information to [lreade@insight.rr.com](mailto:lreade@insight.rr.com) or return this form to Lisa via the PO Box address with the necessary information. Visit [www.krogercommunityrewards.com](http://www.krogercommunityrewards.com) for more information. It is possible to register multiple cards to a player.
